equipped with a key locking dial and each has two inside compartments. (S)

Enclosed for the Central Intelligence Agency are a set of dial keys, appropriately labeled, and a set of (S) keys for the inside compartments of the safes. (S)

Information concerning the existence of this material should be handled on a need-to-know basis. It is requested that no further dissemination of this information be made without prior clearance from this Bureau.

NOTE:

Classified "Secret" since nature of information requires that handling be limited and since disclosure could seriously jeopardize a most delicate source. Information concerning a purchase of the safes was developed by Washington Field and the keys and combinations were obtained by Cincinnati from an established source at the company's factory. The set of keys for the inside compartments consists of total of 8 keys and they apparently are interchangeable to some extent. (S)
